ADHITYA MAULANA WIJAYA

Kuningan, Jawa Barat, Indonesia • adhityamaulanawijaya11@email.com • +6285797317972

PROFESSIONAL SUMMARY

Full-Stack Developer with hands-on experience in building scalable web applications, SaaS prototypes, and automation systems. Proven track record in developing production-ready platforms using React.js, Next.js, Express.js, and modern frontend ecosystems, while also engineering browser automation tools and testing frameworks to optimize workflows and system reliability.

Experienced in designing multi-role architectures, secure authentication systems, and performance-optimized APIs. Passionate about solving real-world problems through clean code, automation, and continuous technical improvement.

EDUCATION

Teknik Informatika (S1) - Universitas Kuningan

Sep 2023 - now | Kuningan, Indonesia

SKILLS

Technical Skills:

Programming & Core Technologies

- JavaScript (ES6+)
- TypeScript
- Kotlin
- Next.js
- Node.js
- Express.js
- RESTful API Development
- Authentication & Authorization
- Responsive & Component-Based UI Development

Database & Data Handling

- MySQL
- Local Storage & State Management
- JSON-based Data Handling

Tools & Engineering Practices

- Git & Version Control
- Performance Optimization
- Agile Collaboration
- Code Review & Technical Feedback

Soft Skills:

- Analytical Problem Solving
- Clear Technical Communication
- Cross-Functional Collaboration
- Adaptability in Dynamic Environments
- Mentorship & Constructive Feedback
- Ownership & Accountability
- Continuous Learning Mindset

WORK EXPERIENCE

Backend Developer - The Association of Indonesian Scholars of English Education

Dec 2025 - Present

- Developed a full-stack web-based platform using React.js and Express.js, streamlining organizational information management and increasing user engagement.
- Implemented secure JWT-based authentication for the CMS, enhancing user data protection and reducing unauthorized access incidents.
- Collaborated with a cross-functional team to integrate Open Journal Systems (OJS 3), improving academic journal publication efficiency.
- Optimized database queries using Sequelize ORM, resulting in a 25% reduction in page load times and improved overall user experience.
- Conducted code reviews and provided mentorship to junior developers, fostering a culture of continuous improvement and knowledge sharing within the team.

Academy Code Reviewer - Dicoding

Feb 2024 - Apr 2024

- Reviewed and provided constructive feedback on over 100 student projects, ensuring adherence to best practices in frontend development and enhancing overall code quality.
- Developed a comprehensive rubric for evaluating student submissions, which improved the consistency of feedback and increased student satisfaction.
- Collaborated with instructors to identify common student challenges, resulting in the development of targeted resources that improved student performance.

Freelance Software Developer - Self employed

Mar 2023 - Present | Kuningan, Indonesia

PROJECTS

CMS Website for AISEE Organization

Technologies: React.js, Express.js, Open Journal Systems, Tailwind CSS

Domira.id - Prototype

Technologies: Next.js, Typescript, ShadcnUI, Recharts, FramerMotion

Data Update Automation – Chrome Extension

Technologies: JavaScript, Chrome Extension (Manifest V3), DOM Manipulation, MutationObserver, Async/Await, Web Automation

Screening Batch Answer Automation – Chrome Extension

Technologies: JavaScript (ES6), Chrome Extension (Manifest V3), DOM Manipulation, Event Dispatching, UI Injection, Web Automation

CERTIFICATIONS

- Junior Web Developer Vocational School Graduate Academy Digital Talent Scholarship 2024
- Dicoding Intermediate Front-End Web
- Analyze Speech and Language with Google APIs
- Analyze Sentiment with Natural Language API
- Alibaba Cloud Developer Certification

ACHIEVEMENTS

- 1st Place – Creative Video Content Competition, GENBI UNIKU, 2025
- 2st Place – Academic Quiz Competition, OIM UNIKU, 2025
- 3rd Place – PKM-PM Proposal Competition, OIM UNIKU, 2024
